# THE PHOTOGRAPHER

**JON RENDELL**

Born in Melbourne, Australia in 1957, Jon finds himself hardwired to focusing upon the transitory, abstract shapes that come and go with the available light — "I'm programmed to see the abstract in the everyday."

Jon has been living in San Francisco for almost 20 years and has made numerous trips to France.

You can follow his latest project: a photo-a-day blog at <http://bit.ly/25ftradius> or [www.facebook.com/jonrendellphotography](http://www.facebook.com/jonrendellphotography)

Né en Australie, à Melbourne en 1957, Jon se concentre sur les formes abstraites qui vont et viennent au gré de la lumière — "Je suis programmé pour voir l'abstrait du quotidien."

Jon vit à San Francisco depuis 20 ans et à de nombreuses attaches à la France.
